PREFACE

The 2002 population estimates contained on the following tables were developed from population estimates released by the University of Louisville, Kentucky State Data Center and the US Census Bureau.

Labor force estimates for 2002 were produced based on several data sources. The Local Area Unemployment Statistics Unit of the Research and Statistics Branch developed the 2002 labor force estimates by county. County labor force estimates for sex and race were developed from the 2000 Census of Population and the 2002 Current Population Survey.

The methods used in preparing the county sex and race estimates assume the same relationships that existed in 2000 continue to exist in 2002. Therefore, these data should be used for Affirmative Actions purposes only. It is also inadvisable to attempt to compare data in this issue with earlier publications.

This report is produced annually by the Research and Statistics Branch under the supervision of Carlos Cracraft. Jonathan MacDonald also contributed to the report's preparation.

OCCUPATIONAL EMPLOYMENT BY RACE AND SEX

Some employers may need additional Affirmative Action Data than is listed in this publication. The U.S. Census Bureau released occupational employment by sex and minority status from the 2000 Census on December 29, 2003. This data is provided in the *Census 2000 Special EEO Tabulation File*. It provides detailed data on the sex and race/ethnicity for 509 occupations covered in the 2000 Census. (Please note that occupations with no employment in a specified area, or in instances where disclosure might lead to confidentiality issues, are not listed.) To retrieve this information, go to <http://www.census.gov/hhes/www/eeoindex.html> and follow the below steps:
